REPORT OF THE BOARD OF EDUCATION
OF THE
TOWN OF ROLLINSFORD

For the Year Ending February 15, 1912.

The years come and go, and nineteen hundred and eleven is behind us. What have we done to advance and uplift humanity? Have we, as members of this grand old Commonwealth, as citizens, as parents, done our full duty to our schools and our children? Have we visited the schoolroom to see whether it is a pleasant one or no? Have we become acquainted with the teacher, and are we willing to assist as much as in our power to help her in her often overburdened work? Who of us can say we have been there? Have seen and know of the troubles both teacher and pupil are subjected to? Five days in the week, six hours a day, and thirty-six weeks in the year our little ones are confined to the schoolroom and under the care of the teacher. Are we not duty bound to see to it that our children are progressing along those lines that will make their future lives harmoniously beautiful. Confidence in the school board, teacher and janitor is a good thing, but over-confidence leads to many errors and mistakes.

While there have been several changes in our teachers, we feel assured that on the whole we are making as good a record as in the past. While we fully believe that teachers are born, not made, we certainly would emphasize the fact that those who by special training in the Training or Normal School, or even in the School of Experience, are much better prepared to do good work than those without such preparation. We very much dislike to change our teachers. If we secure the best or retain the successful ones, we must make it an object to have them remain. Miss Brewer has been with us as teacher in penmanship as much as she possibly could. The results of her labors have been a material benefit to the children in their writing. Our schoolrooms are in most excellent shape and will demand but little in way of repairs for some time. We wish once more to thank the public for their earnest support.

The list of teachers is as follows :
